**BELLE:** The Romans NT presents Jesus as Messiah, then as God himself. The Jews rejected this view bc in the Hebrew scriptures (OT) the Messiah was to be born of the male line of King David, must fulfill the law of the Torah, not change or cancel it! According to the Hebrew scriptures the true Messiah would usher in an era of world peace immediately, not after a 2nd coming. Pop Top/#56401

**BELLE:** There is no reference in the OT to any 2nd coming. A Roman invention. There is no reference in the Hebrew scriptures that God will come to Earth as his only begotten son to suffer and die for the sins of humanity. Another Roman NT invention Humanity according to Jewish law could be saved only through righteous living. Pop Top/#56403

**BIDS FOR 35 MILLION GREEN CARDS & WORK PERMITS ARE BEING** solicited by US gov't from vendors. Also, Friday, Obama signed order seeking 100,000 refugees in Haiti to be reunited with their relatives in US without visas. When this was done with the illegals coming over the southern border, 70% were never heard from again, not reporting for their court dates. The work permits & green cards to be available in next 2 years. How long BO has left in office? 2 years. Plenty of time to redistribute our wealth and fundamentally change this nation. In 2 weeks we can vote this crew out and begin to stop this regime's highjacking of our gov't #/169296

**BOOK OF TRIBES:** have walked this earth for many thousands of centuries before Noah, were descendants of Adam and Eve. Both sides of the earth have pyramids, the ability to farm, worked stone and places of worship. One thing tribes have all in common that is strange, they all look up for God, and all have the knowledge to work gold. Their teachings came from one point. The last time God showed up He judged the tribes of the world, only one tribe made it. The old book of the Bible is the history of Abraham's tribe before and after. The NT is an affidavit of about a dozen eye witness accounts of His powers, the Son. The Old Indian/#67633

**CRICKETS CHIRPING WAS THE ONLY SOUND TO BE** heard for weeks following some opinions I thought would cause vigorous opposition. Disability frauds, old age / disabled's driving questioned, gov't workers jobs only temporary, etc. And when what seemed to be opposition to some political opinions we expressed, nothing was said to refute them. I think we are all complicit in this wrong-doing. Maybe we are benefiting from these things, or we may be expected to step up and take some responsibility ourselves for change to occur. Sometimes the bit dog barks, sometimes he doesn't want to bring more attention to himself, so keeps quiet./#169312

**DOES ANYONE KNOW** how many million dollars your President has cost the taxpayers while using Air Force One and the accompanying jets while using them just for vacations and trying to raise funds for the Democratic party? Enjoy it while it is still lasting Mr Obama/#67041

**ERIC HOLDER** has been one our best attorney generals. Hard-working on civil rights,voters rights

the only thing is he should have prosecuted more Wall St thugs, theives and liars. Little word of history for y'all Ronald Reagan had the only attorney general to go to prison. Edwin Meese for illegal arms sales. A little more Reagan history for all you religious repubs Reagan would not make any decisions in the White House w/o first consulting an astrologer/#169397

**FREEDOM OF RELIGION AND SPEECH RECENTLY** challenged greatly in Houston when pastors were told to submit copies of sermons to authorities after measure passed to allow the gender confused to use whatever bathrooms they deem appropriate. This is not going unchallenged, but I never thought I would see the day, in America, with such things going on. God's blessings, because of obedience to God's Word, is what made this country great. The further we get from God, the further we get from 'great'. At least we have a leader honest enough to tell the whole world there is nothing special about America. And there will not be, if we continue this move away from God and His principles/#169310

**LAWS ARE THE CHILDREN OF OPINION,** of power, of monetary gain & are seldom compatible with true justice. The US has more laws & more lawyers than any other nation. Judgment bribed to lose its way. Pop Top/#56404

**NEO-CONS IN RETROSPECT** Neo-cons believe national opinion must be shaped by its rulers, the vulgar ruled by the myth of faith and its necessary ally force. Neo-con morality is conventional and pragmatic, whose end is clear and simple, the subordination and sacrifice of the individual to the nation state. Their aim to remoralize America via a new patriotic civil religion around the idea of good Americanism, where commoners work hard, attend church, pledge allegiance, practice home spun virtue, sacrifice self for common good, obey government, fight wars and die for the state./#67461

**NEO-CONS IN RETROSPECT** core principles. They believe the actual content of the public interest is whatever wise men say it is which is precisely why it should never be defined. The highest task of neo conservatism is to superimpose ideological unity on the collective self in the name of an ever-shifting public interest. These platto dittoheads assume ordinary people irrational who need guidance from the rational. Neo cons have different truths for different people, that one morality fits all is a fallacy, highest truth restricted to the philosopher, commoners limited to myth, revelation and custom./#67460

**NEO-CONS IN RETROSPECT** Neo-con grand foreign policy purpose is to inspire America to forge selfish interests and support heroic and uplifting national projects in their minds, wage war, to combat morally degrading national complacency and contentment, spending treasure and blood, bringing strangers democracy, a worthy mission of a great nation. By saving the world from tyranny American will save herself from her own internal corruption. We should fear that Neo-cons are preparing this nation for American style fascism, purged of ugly features and gussied up for an American audience. Neo-cons are collectivists demanding service to some fuzzy notion of national greatness./#67462

**NEO-CONS IN RETROSPECT** Neo-cons are statists advocating use of coercive power to regulate man's economic and spiritual life. The downplay

the importance of constitutional boundaries while glamourizing the virtues of statesmen. Accepting the moral ends of liberal socialism but think themselves better able to deliver the goods. Neo-cons are a mandarin class of virtuecrats, the conservative version of FDR's brain trust who seek to regulate all human thought and action from the bedroom to the boardroom, they are the false prophets of Americanism. This paraphrase from a 2011 Libertarian newsletter. Dirtball/#67463

**NO CREDIT CHECK** 5% title loans at JCI Finance 256/538-8566 #/30054

**OBSEVER:** I've probably forgotten more than you will ever know! But I try to keep it fresh. The Bible is like riding a bicycle. Just can't rember phone#. Oh well RN/#169345

**QUESTION FOR JOHNNY** How are love & fire alike? If you stomp on a fire, it will go out & if you stomp on love, it will go out. If you feed fire like you nourish love, both will grow as long as fed & nourished, but eventually go dim & die without being fed & nourished, especially when stomped on. Jet I would do anything to see you truly happy/#168880

**TAKE A TRIP** down memory lane, remember how you treated your parents, you treated them like dogs, told lies on them & you know you did it, which may be why you're being mistreated by your children, because you do get paid back, so think about it./#67642

**TEA PARTY MAN:** God's elect, do you qualify? Rev 14:1-1. Pop Top/#56402

**TEA PARTY MAN:** the water the spirit and the blood. And you must become as a little child. God is a spirit and they that worship him MUST worship in spirit and in truth. When you cannot tell good from evil the spirit is not in you. It's not that you don't have the ability to learn, you just choose not to. You and Pop Top think alike. Red neck against the CORP tea party/#169363

**TO THE REDNECK** I was just wondering about your god Bill Clinton who's telling the ones running for Democratic offices to distance themselves from Obama, don't run on nothing Obama's done. Even Bill Clinton has realized the Obama administration has been a failure, he's telling the Democrats that if they run on what Obama's accomplished that they will lose, so I was just wondering what you thought about that, Redneck Against the Tea Party. Tea Party Man/#67893

**YOU PEOPLE WHINING** that your children mistreat you, you're probably getting paid back because most likely you were mean to your parents too. Think back, don't try to deny it, you know you mistreated your parents, quit whining and trying to be a victim./#67061

## Calling All Christians of Calhoun & Talladega Counties

Recently, with all the attacks and persecutions on churches of all denominations, legal representatives as well as our Christian politicians and law enforcement agencies, have been fearful of violating any laws or rules that would bring legal problems to the pastors of our churches. Higgins Ministries, a young up-and-coming ministry and advocacy group for veterans, the poor and minorities, has delivered literature involving the things that most Christians are concerned with.

This ad is being placed so the members of the congregations can ask their pastors about the communications, making it not a matter of a pastor violating any laws, but merely answering a member's question.

Some interesting laws have been passed recently. In particular Law 2006-227 by deceased war hero Senator Benton of Alabama and one of Gov. Bentley's associates while he was a representative for Tuscaloosa, being Act 2014-332. In today's modern world we are blessed to be able to keep up with all aspects of our government with computers. Just by typing in the Code of Alabama of 1975 and a different web page of Acts of Alabama we can see the whole history of laws passed on any politician in the state. This tool is a great help in determining who to vote for when the party lines become more and more blurred.

Higgins Ministries tried to supply every church with this info, but in case your pastor wasn't supplied, let us know and we will supply him. We also have hard copies of the Acts 2014-332 and 2006-227 just in case these unreliable systems do not show the info.

As Christians in these trying days and with so much evil around us we must pull together and unify in a way the world has never seen before and in the name of Jesus Christ we shall do just this. Bless you all.

**N GADSDEN PARENTS** are your kids out noodling in the Coosa River? If so, please read this. I've had kids come out & noodle under my boat launch, they were pulling out mud, dirt & rocks out from under my boat launch & now my boat launch is unsupported because they've pulled everything out from under it. My boat launch has started cracking & falling through & I've had to do extensive work on re-doing it, having to re-pour it & put stuff around it so that it won't crack anymore & my neighbors are having to do the same thing. If you have kids who are out noodling please ask them not to do it, if they're not causing any problems it wouldn't bother me a bit, but when I have to spend lots of money & put in lots of hard work & not able to use my boat launch it's a problem./#67125
